

Table 2

Your
Nest Egg Calculation

Number of years until retirement	
Monthly income desired if you retire tomorrow (\$)	
Multiply by 12 to get	X 12
Annual income desired if you retire tomorrow (\$)	
Multiply by 25 to get	X 25
Nest egg required if you retire tomorrow (\$)	
Adjust the nest egg required tomorrow by an inflation rate of 3% to get the nest egg you will require in 30 years (\$)
